

Foreword

This training package has been developed to provide a sustainable and free resource to trainers and subject matter experts worldwide.

By passing on the lessons that the ENTRi consortium partners have collected on their own and through their peers over many years of conducting training, we hope to extend the impact and knowledge to future projects and generations.

By sharing effective training techniques, tested methodologies, critical learning objectives, sample session plans and templates, amongst others, we aim at saving you precious time and resources.

Since no size fits all, ENTRi training packages have been designed so that you can tailor them to your needs and audiences.

In the name of the ENTRi consortium, I wish you great success with your training and encourage you to share these manuals with whoever could benefit.
