<p>To be reviewed by <i>February 2023</i></p>	<p>Activity Number <b>8</b></p>	<p><b>CSDP Capability Planning and Development Course</b></p>	<p>ECTS <b>1</b></p>
<p><u>Target Audience</u></p> <p><i>The participants, coming from relevant ministries of the EU Member States, EU Institutions, Agencies and CSDP missions and operations will preferably have basic knowledge of CSDP and some experience in the field of capability planning and development.</i></p>		<p style="text-align: center;"><u>Aim</u></p> <p>This course aims to enhance a common understanding of EU civilian and military capability planning and development processes, and the role of EU Member States, EU Institutions and Agencies in this context.</p> <p>To do so, the course focuses on EU's current needs and capability trends from doctrinal and institutional angles, highlighting the efforts to develop the EU's strategic autonomy, through the Strategic Compass and the Civilian CSDP Compact. It discusses the role of different stakeholders and explains the methodology and working methods driving the CSDP capability planning and development processes aligned to the Headline Goal Process (HLGP) and Civilian CSDP Compact. It gives insights on its major outcomes and products, highlighting, on the defence side, connections to national defence planning and EU defence capability related initiatives (e.g. CDP, CARD, PESCO, and EDF) and on the civilian side linking with relevant developments in Member States and the EU services.</p>

### Evaluation and verification of learning outcomes

The course is evaluated according to the Kirkpatrick model: it makes use of *level 1 evaluation (based on participant's satisfaction with the course)*.

In order to complete the course, participants have to accomplish all learning outcomes. The evaluation is based on the active contribution in the residential Module, including their syndicate session and practical activities as well as on their completion of the eLearning phases (c pass the *mandatory* tests, Active observation by the course director/lead instructor and feedback questionnaire filled by course participants at the end of the course is used.

**However, no formal verification of learning outcome is foreseen; proposed ECTS is based on participants' workload only.**
