

**INVITATION  
TO THE  
COURSE ON “THE CHALLENGES OF EUROPEAN CYBERSECURITY”**

(ESDC ACTIVITY NUMBER 24-25/200/1)

**Online (via WebEx), September 30 – October 04, 2024**

The Portuguese National Defence Institute (IDN) under the auspices of the European Security and Defence College (ESDC), has the great honour to organize, the 2024 edition of the course dedicated to “*The Challenges of European cybersecurity*”. To promote participation, this course will be held virtually (via the Cisco WebEx platform).

Cyberspace has become a global common and prominent strategic domain in international relations. In this context, the European Union (EU) has strengthened its strategic standing to efficiently tackle emerging and increasing threats posed by cyber actions while also benefiting from relevant opportunities in the new digital age. The EU Cyber framework, inter alia, the adoption by the Council in June 2017 of the Cyber Diplomacy Toolbox and its June 2023 Implementing Guidelines, the revision of the EU Cybersecurity Strategy in 2020, the Strategic Compass in 2022, the EU Policy on Cyber Defence in 2022 and the NIS2 Directive, highlight the EU’s engagement and involvement as regards the reinforcement of its posture in cyberspace.

This course will address several topics to better understand EU Cybersecurity and Cyber Defence practices and challenges and identify the broader dynamics of cyber-policy, in five sessions dedicated to the following themes:

- Cyberspace: Concepts & Policies
- Cyber Resilience
- Capabilities and Requirements
- Diplomacy and Compliance
- Decision Making Exercise

Throughout this course, participants will have the opportunity to learn and exchange views with experts and officials on cyber threats and national policies, EU capabilities, strategies, and policies to address cyberspace challenges, legal frameworks, and confidence-building measures in cyberspace. As a non-technical cyber training, course participants should be mid-ranking to senior officials dealing with strategic aspects in the field of cyber security and cyber defence from EU MSs, relevant EU Institutions and Agencies as well as candidate countries and countries outside the EU.

Therefore, it is with great pleasure that Portugal invites you to this course regarding the challenges of European Cybersecurity. Please find attached all relevant details regarding the registration process.
