

HELLENIC JOINT INTELLIGENCE SCHOOL  
EUROPEAN SECURITY AND DEFENCE COLLEGE

## INVITATION TO THE “OPEN SOURCE INTELLIGENCE (OSINT)”

*(Activity Number: 23-24/261/1)*

*Athens, 24 June – 5 July 2024*

Greece has the honour to organize, under the auspices of the European Security and Defence College (ESDC), a course dedicated to offer the basic knowledge of «OSINT» operations. This course is organized by the Hellenic Joint Intelligence School (HJIS), as part of the PESCO project “Joint EU Intelligence School (JEIS)”. This course will take place in Athens, from 24 June to 5 July 2024.

The course is intended to strengthen the establishment of the Cyber Education Training Exercise and Evaluation (ETEE) platform of the ESDC and widen the scope of its activities by addressing basic strategic/ operational level training in OSINT.

In this respect, this course aims to provide a forum for the exchange of knowledge and best practices among « OSINT operators» by improving their knowledge, skills and competencies via structured methods of collecting information and lab exercises.

The training is including a preceding e-learning session which, as a mandatory module, will provide the participants all the introductory materials they need to become familiar with OSINT. During the ten-day residential part of the course, the participants will be introduced to OSINT and instructed on how to use various tools and structured methodology in order to fulfill an intelligence requirement.

The course will be held in English and can accommodate a maximum of 15 participants. The attendance must be physical because of the lab exercises, to support networking and the exchange of best practices among the participants. The deadline for applications is on 5 June 2024

This training course is open to military personnel (NCOs OR-6 through OR-9, WO and Officers OF-1 through OF-5) and mid to senior civil servants from EU Member States and EU institutions and agencies who are currently employed in positions in which they are required to deal with intelligence requirements and analysis requests or who are willing to discuss and update their knowledge on these issues.

The ESDC is committed to an inclusive, gender-sensitive and discrimination-free environment. Only in an inclusive environment can all people, and therefore the ESDC and its partners, realize their true potential. We therefore particularly encourage those applicants who are likely to be underrepresented to apply.
