

European Security and Defence College
Alumni Association (ASBL)

The 10th Anniversary of the European Security and Defence College in 2015 also marked the creation of the ESDC Alumni Association. The objective of the association is to create and maintain a network of CSDP-knowledgeable professionals who have attended training activities organised under the aegis of the ESDC.

The association aims at developing a network of ESDC ex-alumni, a group of professionals working in many different domains across Europe, sharing a common interest for EU security and defence. We want to promote the role of Common Security and Defence Policy within the European integration process and to contribute to building a truly European Strategic Culture placing the EU at the forefront of global efforts to promote peace and stability.

The Association, in close relationship with the European Security and Defence College, intends to bring together these different profiles by organising debates, conferences and activities which will contribute to promoting the development of the CSDP. It will also contribute to the creation and deepening of links between its members and the European security and defence institutions.

We encourage you to join today this project by dropping us a message to admin@alumni-esdc.eu with your current contact details, mentioning the training activities attended; we will be glad to inform you in further detail of the future perspectives of the ESDC Alumni Association. This is an open project and we would be very pleased if we could count on you to bring it forward.

Have you attended a CSDP training activity under the aegis of the ESDC?

Are you interested in European Security and Defence matters?

Would you like to contribute to build a truly European strategic culture?
